

Week 17

Topic: Design Your Own Culture (cumulative project)

Guiding Questions:

What are the required components for a culture to exist?

Are some components more important than others?

Goals:

- I. To demonstrate a complete understanding of components represented within culture
- II. To inspire creativity and encourage students to think outside the box
- III. To develop oral and written presentation skills

Activities:

1. Design Your Own Culture Project (Cumulative project): See Appendix H

Active Cross-Cultural Exchange:

Create your own culture: After creating their own culture, students can have their projects uploaded to the Global Playground website or the YouTube channel so that students around the world can view these new cultures. Students can even use previous cross-cultural exchanges to mold their own cultures. For more information, contact info@globalplayground.org.
